

SPAUG

# PrintScreen

Post Office Box 20161, Stanford, CA 94309-0161  
Vol. XXII No. 6 - Newsletter of the Stanford/Palo Alto Users Group for PC  
A Non-Profit / Educational Organization - <http://www.pa-spaug.org>

## Notes from the Prez

by Jim Dinkey

The big story is that **the SPAUG CD is ready**. Full discussion is elsewhere in this newsletter.

First of all **there is a “new” technique on how to resurrect Epson printers that have not been used for a while and have become gummed up to the extent of no printing. What follows applies to many similar printers, not just Epson.**

This is the approved means of resurrecting a plugged up printer rather than tossing a \$200 printer as I have had reported to me.

**The Epson manual is quite explicit in stating that the printer should be used at least once a month. The problem arises when the rules are not followed and the ink is allowed to dry to the extent that even the vacuum pump in all Epsons cannot break the seal.**

The printing plate in the Epson is a single set of very small holes attached to the tanks above, so the technique is to flush the plate with some methanol by the proper application of methanol while the effluent is being collected underneath,

Then after the collecting paper towel is removed, the cartridges can be refilled and the counter reset in the cartridge so the drop counter is no longer a problem.

By this procedure, one can resurrect a ‘dead’ printer, be a hero, and save a lot of money by re-filling cartridges if you are into photo printing.

**The Clinic is back but there are some changes with the user being requested to take more responsibility for coming prepared.** If you cannot do the preparation for any reason, the necessary steps will be performed for you.

Computers will need to have a second drive upon which a backup has been performed and a printed copy of BelArc is requested.

There will be two 9:30 a.m. customer slots. Only if one of the slots comes to completion will the afternoon slot be activated.

When the computer leaves, it will have a standard set of anti virus and worm protection. If it needs it, a network interface card will be installed and

*(Continued on page 2) ►*

**General Meeting @ Elks Lodge - Wed. June 9 @ 7:15 PM  
4249 El Camino Real - Palo Alto (directions on page 3)**

**Optional Dinner at Thai City, 5:45 pm (see page 3).**

◀ (Continued from page 1)

left in place.

The saga of whether you can add the new large hard drives that are larger than 137 GB is an exercise in frustration unless you have certain rules explained.

The computer has to be somewhat current and must meet the Microsoft hardware standards. Further, the Windows 2000 and XP software cannot set up or format over 137 GB so one needs to employ Partition Magic 8.0 to set up and format the hard drive to the 250 GB capacity and to assure the structure is NTFS.

Some time ago SPAUG members were given the URL of the Microsoft location to order the CD that brought Windows 98, 2000 and XP current on security patches. There is no charge for the CD. The CD has proven to be invaluable when dealing with a reload of a computer. The CD permits patching through about October 2003, without having to spend the time to download the massive security patches. If you are still on a dialup modem, this is certainly the way to go. The use of the update CD does not obviate your need to download non-security patches, but it certainly does help the overall process. Also, the patches occurring since the freezing of the status of the CD also need to be downloaded.

Elsewhere in the newsletter is a schedule of the **next meeting** which will not follow the usual pattern.

We have about 25 two-minute demonstrations of significant portions of the SPAUG CD in an unabashed hyping of the Club CD. Interspersed with the shift-over of five demonstrators that have rehearsed, will be the raffle of about 50 items donated by Larry Magid to Lamont Shadowens. So while we will be

setting up for the next of five speakers, we will have the drawing for ten door prizes. After jumping up for the prizes, it will be back to the show-and-tell. You will be given 20 door prize tickets to be used in any manner you wish for the 50 prizes. The usual cup will be provided for your ticket(s).

**What to do when you need help is often a very thorny problem.** PC Magazine April 2004, did a very good job of reviewing the subject. So that you won't lose the information, here is an excerpt:

#### Paid Support

[www.askdrtech.com](http://www.askdrtech.com)  
[www.888geekhelp.com](http://www.888geekhelp.com)  
[www.pcpinpoint.com](http://www.pcpinpoint.com)  
[www.speakwithageek.com](http://www.speakwithageek.com)  
[www.tech24.com](http://www.tech24.com)

The last one above can use a remote program to let the technician look at and operate your computer - a capability I use whenever I can arrange it with the client. Because of poor performance, I have to recommend against using them. Find another vendor. Generally I use PcAnywhere as it is quite effective.

## Meeting Day: Wednesday, June 9

### General Meeting

Elks Lodge,  
4249 El Camino Real, Palo Alto

Meeting time is **7:15 pm**

### SPAUG CD Team

Speaking about:  
CDs, CDs, CD

Demos

Door Prizes

Buy SPAUG CDs

The Elks Lodge is on the North (bay) side of El Camino Real, between Charleston and San Antonio Road, but very close to Charleston. It is next to Ricky's Hyatt House, which is on the corner.

Park your car in the parking lot at the front of the lodge, and proceed to the center door. This is a keycarded door so we will have someone at the door to let you in. Proceed to the Lodge Room straight ahead and to the left.

If you cannot get in the center door because you are late, press the wireless doorbell that will be in place for each SPAUG meeting, and someone will come to let you in.

### Probable Meeting Agenda for June 9 only

- 7:15 "Boot up"
- 7:30 Announcements,  
Random Access
- 7:45 Door Prize Drawings
- 7:55 SPAUG CD Demo
- 8:05 Break **buy SPAUG CDs**
- 8:20, 8:40, 9:00, 9:20  
SPAUG CD Demo
- 8:30, 8:50, 9:10, 9:30  
Door Prize Drawings
- 9:45 Adjourn, **buy SPAUG CDs**

### Optional pre-meeting dinner

Join us for dinner before our General Meeting at —

**Thai City, 3691 El Camino Real, Palo Alto**  
(corner of Wilton, between Curtner and Page Mill, bay side)  
650-493-0643

<http://www.thaicity.com/>  
Menu: <http://www.thaicity.com/menu.html>

Dinner time is **5:45 pm**

Note the **location** for  
this month's dinner.

## Questions and Answers

Name	Area Of Expertise	Phone	Hours	e-mail
Jim Bailey	DOS, quickbooks 6, Quicken 98	650 494 0631	9AM - 9PM	Jimby@pobox.com
Jim Dinkey	All Windows versions	650 493 9307	9AM - 9PM	jimdinkey@jimdinkey.com
Bill Goldmacker	DOS	650 691 0911	6PM - 9PM	gold@svpal.org
John Sleeman	UNIX, UNIX Utilities, Awk, HTML, XML, Perl	650 326 5603	9AM - 8PM	sleemanj@earthlink.net

### Arlan Kertz - "SPAUG 501(c)(3)"

This is to remind you that SPAUG is a non profit organization registered with the IRS under Internal Revenue Code 501(c)(3). In this regard, your dues (except for \$12 for the newsletter) are deductible. Also, any additional cash and or other non-business assets donated to SPAUG are also deductible.

Stanford/Palo Alto Users Group for PC (SPAUG) annual membership dues are \$35, payable to SPAUG, at PO Box 20138, Stanford CA 94309-0138.

Please include your name and address, and optionally an e-mail address and any special interest group (SIG) you want more information about.

Questions? Call Beverly Altman (650) 329-8252 or Jim Dinkey (650) 493-9307.

And then there is the Clinic.

## May 2004 General Meeting Notes by Stan Hutchings

### Administrivia

- The **Mid-2004 club CD is ready**, price is \$20. It contains old favorites, new items, and updated standards.
- **If you want to attend the Clinic, be sure to make a reservation.** There are very few slots, and they go fast.

### Random Access

- **Jim Dinkey recommends RegVac** (shareware, 15-day trial, then \$29.99) <<http://www.>

(Continued on page 5) ▶

◀ (Continued from page 4)

softlandmark.com/Registry.htm> **to clean up your registry.** This can clean up the mess left by upgrades that don't quite complete. Among the alternatives, Norton Systemworks also is good for fixing registry problems (and many other problems), and **RegClean is a freebie, on the club CD.**

- **Problem: Symantec does not finish all updates, one item is still red.** Suggestion: try running Live Update manually; sometimes a new package has to be run several times (with reboots) to get all the updates. If this doesn't work, call tech support.
- In answer to a question about **Panda Antivirus**, several members said it seems to be a good program. [N.B.- Panda had a free offer recently, on ZDNet or PCMagazine. Their major customers seem to be businesses, rather than individuals. There are other free AV programs available, see our Security page.]
- **If you are making a backup to an external USB drive, or even your CD burner, you may have a problem if you don't have a boot disk that activates the CD or external drive's USB driver.**

Many boot disks do not have these essential applications; some don't even have mouse drivers. You should have a bootable disk with all the drivers you need to recover your system. See The Perfect Rescue Tool - a Bootable CD <../Dom03/dom0309.htm> in September 2003 ShareWhere, and Ultimate Boot CD <../Dom04/dom0405.htm> in the May 2004 ShareWhere. Acronis True Image backup software <<http://www.acronis.com/products/trueimage/>> (\$49.99) avoids the problem, you can backup while you're

running and revert to a backup very easily at bootup.

- **If AOL is your ISP and you've been missing attachments in your email - get a different ISP.** AOL is known to block some attachments.

### *Presentation*

**George Sidman** of MNC [Monterey Network Center] gave a presentation on his new endeavor, WebLOQ <<http://www.webloq.com/>>.

### **WebLOQ is the first technology that stops malware at its source**

- shutting down the hijacking of email addresses and content
- eliminating phishing, spam, and identity theft.

WebLOQ operates seamlessly behind standard applications, such as Microsoft Office, Outlook, Netscape, etc. and allows you to work as you always have, in programs you know, while achieving robust business privacy within a private community.

The breakthrough WebLOQ solution brings to all Internet users, for the first time, complete Internet privacy for sending and receiving private emails, and exchanging secure documents of any format or size.

WebLOQ benefits anyone who has a need for end-to-end Internet privacy for:

- the integrity and accountability of a private Internet community,
- exchanging secure registered email and attachments,
- the secure and trackable exchange of multi-user documents,

(Continued on page 6) ▶

◀ (Continued from page 5)

- the elimination of malware, such as spam and viruses, and,
- protection from personal data hijacking and identity theft.

## May 2004 Planning Meeting Notes by Stan Hutchings

- The meeting was held at Jim Dinkey's house; attendees: Jim Dinkey, Dick Delp, John Sleeman, Susan Mueller, John Buck, Ron Nicholas, Stan Hutchings. The attendees enjoyed the refreshments served.
- Plans for the club CD demonstrations were made. Our plan is for everyone to be familiar with the applications they will demo, and have a script. The WebSIG meeting 25 May at Stan Hutchings' house will be a rehearsal. John Buck will load the applications to the club computer, Dick Delp will bring his computer. With good preparation, we should be able to Alt-Tab among applications, and set up during the doorprize giveaways between presentations.
- **John Buck** will demo *SpaceMonger*, *Dup Detector*, *Exam Diff*, *XnView*, *TrackerV3* and *AM-Deadlink*
- **John Sleeman** will demo *Brother's Keeper*, *Workout*, *SisSoftSandra* and *Sam Spade*
- **Dick Delp** will demo *OpenOffice.Org*, *Excel Reader*, *Microsoft Office Reader* and possibly *Opera*
- **Jim Dinkey** will demo *Belarc Advisor*, *MailWasher*, *Mars Rover*, *Spybot*, *E-mail Cleaner* and *FontList*.
- **Stan Hutchings** will demo *ShareWhere*, *WS\_FTP*, *Arachnophilia* and *the club website*.
- **Bev Altman**, **Ron Nicholas** and **Susan Mueller** will handle the *doorprize* giveaway.
- The meeting will start with the *Mars Rover animation*, as people sign in and get seated. Then Random Access, doorprizes, a presentation, and Refreshment Break. Continue after break with presentations and doorprizes alternating, until time and prizes run out.
- We don't have a program for 11 August yet. Dick and Jim will try to organize a presentation by Microsoft for the 8 September meeting. We need about 75 attendees, composed of SPAUG and other local groups.
- Hank Skawinski was proposed for the October meeting, which could switch with Microsoft, depending on speaker availability.
- Our general meeting announcements should be distributed to the local papers 3 weeks, 2 weeks and 1 week prior to the meeting. This was Marvin Kraft's secret - saturate the media. Since Susan Mueller is our de facto publicist, she agreed to try the saturation bombardment.

June 2004 SPAUG News

SPAUG CALENDAR						
Always subject to change; verify event with host or Jim Dinkey						
Sun	Mon	Tue	Wed	Thu	Fri	Sat
		1	2			5 Clinic, TBD
		8	9 5:45 pm Dinner (Optional), Thai City 7:15 pm General Meeting Elks Lodge Spkr: SPAUG CD Team			12 Clinic, TBD

## **General Meeting Wed. June 9, 7:15PM**

***Elks Lodge, 4249 El Camino, Palo Alto (bay side of El Camino, between Dinahs and Charleston)***

SPAUG  
PO Box 20161  
STANFORD CA 94309-0161

**June 2004**

**First Class Mail**

# PC USER GROUP Meeting

**WEDNESDAY**

**June 9**

**7:15 PM**

**Elks Lodge, 4249 El Camino Real, Palo Alto**

Hosted by: SPAUG (Stanford Palo Alto User Group for PC)

**Topic: The SPAUG Mid04 CD Fair**

**Speaker: The SPAUG CD Team and SPAUG officers,**

Whether you're an old hand at computers or a relative newcomer, this is an evening you shouldn't miss, as we alternate between demoing programs we've put on the SPAUG Mid04 CD and holding drawings for some really nifty doorprizes. This might be a good time to introduce a friend to SPAUG.

We'll be demoing about 25 programs, covering areas from file and disk management to OpenOffice.org and the SPAUG website.

We have about 50 doorprizes, so your chances of walking out with one you'd like are probably pretty good.

Oh, yes, we'll also be selling our SPAUG Mid04 CDs. Buy one for yourself and several more to give as gifts. \$20 each.

Note our  
dinner  
LOCATION  
and TIME

You are invited to join us for an optional no-host dinner  
before our meeting, at **5:45 pm**, at  
Thai City 3691 El Camino Real, Palo Alto, 650-493-0643

Upcoming meetings: **6/9**, 7/14, 8/11, 9/8, 10/13, 11/10, 12/8

**SPAUG — Stanford Palo Alto Users Group for PC**

**PO Box 20161, STANFORD CA 94309-0161**

**<http://www.pa-spaug.org>**

**Jim Dinkey, President, 650-493-9307 [jimdinkey@jimdinkey.com](mailto:jimdinkey@jimdinkey.com)**

# SPAUG CDOM Mid 2004 (Page 1 of 5)

Name: 2xExplorer v1.4.1.12; Keyword: file management	Lightweight and powerful, fully shell integrated and extremely usable for increased everyday productivity, 2xExplorer is an ideal dual-pane replacement for explorer, compatible with all 32-bit windows platforms.
Name: Add/Remove Pro v2.08; Keyword: uninstaller	This free tool shows you what is in the Add-Remove Programs list, which entries are valid, and allows you to uninstall or remove any entry.
Name: Adobe Reader v6.0; Keyword: PDF reader	Free software for viewing and printing (PDF) files on major hardware and operating system platforms.
Name: Agent Ransack v1.7.3; Keyword: file management	Agent Ransack is a free tool for finding files and information on your hard drive fast and efficiently. When searching file contents, Agent Ransack displays the text found so you can quickly browse the results without having to separately open each file!
Name: AM-Deadlink v1.41; Keyword: system utility	Detects dead links and duplicates in your Browser Bookmarks. If a Bookmark has become unavailable you can delete it from your Browser. AM-Deadlink checks Bookmarks from Internet Explorer, Opera and Netscape.
Name: Apple itunes; Keyword: Music player	This program has an easy to use interface and is an alternative to the other Windows based music programs and is free. Lets users access the once-Mac-only Music Store from Apple. The only player that it works with is Apple's Ipod and it works seamlessly with it through either a USB 2 connection or Firewire. This program supports the following formats, ACC, MP3 and Wav. Downloaded music from the Music store is in an encoded version of ACC. This can be download to the Ipod and can be burned to CD-R's. This program has a built in CD burning software, nothing extra is needed, and has unlimited MP3 Conversion built in. All for free. Once copy protected music is burned onto CD-R's, there is no longer any copy protection. One that has another player, can use these files bought on Apple Music Store, but has to burn a disk first and then rip it to MP3, WMA depending on what the player uses. This program works only Windows 2000 or XP, but not 98 or ME
Name: Arachnophilia v4.0 Keyword: HTML editor; Freeware: (Careware)	Arachnophilia is a powerful programming editor with some special HTML production and editing features. With it, you can create HTML pages using a suite of powerful tools, upload your Web site to your Internet service provider using Arachnophilia's built-in FTP service, and more. Ask Stan Hutchings about the modifiable menus and keyboard shortcuts.
Name: Audacity; Keyword: Audio Editor	Audacity is a free audio editor. You can record sounds, play sounds, import and export WAV, AIFF, Ogg Vorbis, and MP3 files, and more. Use it to edit your sounds using Cut, Copy and Paste (with unlimited Undo), mix tracks together, or apply effects to your recordings. It also has a built-in amplitude envelope editor, a customizable spectrogram mode and a frequency analysis window for audio analysis applications. Built-in effects include Echo, Change Tempo, and Noise Removal, and it also supports VST and LADSPA plug-in effects.
Name: avast! Home Edition ; Keyword: antivirus	One Alternative to Norton Anti-Virus 2004, but has none of the baggage that Norton Anti-Virus 2004 carries. This program is another Free Anti-Virus program with paid versions available from them or other locations. This program also has an easy to use interface and user never has to pay subscriptions every year or buy now versions. Also can be set to update automatically download like AVG Free Edition and has no Product Activation or Copy protection of any kind. This program does have at least Web Support and maybe Email Support as well. The only down side, is after the program is installed, one has to register it and get a serial number through email to make it work beyond 90 days and has to be registered once a year. No cost for this, but beats paying and works on Windows 98 through XP.
Name: BeLarcAdvisor v6.1; Keyword: system profiler	BeLarc Advisor builds a detailed profile of your installed software and hardware and displays the results in your Web browser. All of your PC profile information is kept private on your PC and is not sent to any web server.
Name: Boot Log Analyzer; Keyword: boot up analyzer	FREE Boot Log Analyzer utility to help in identifying Windows95/98 boot-up problems. Looks at your Windows95 BOOTLOG.TXT file and calculates the time taken to load each driver etc, in order to help in locating any cause of lengthy boot-up times. The displayed result can be sorted by loading duration, filtered to show only those items with long durations or which reported failure, and saved to a text file. ; Please note: This utility is intended for use by PC Support Personnel and Advanced Users only - interpreting the results requires in-depth technical knowledge.

# SPAUG CDOM Mid 2004 (Page 2 of 5)

Name: BrothersKeeper v6.1; Keyword: genealogy ; Trialware: (\$45 registration)	Brother's Keeper is a Windows genealogy program that will help you organize your family history information and let you print a large variety of charts and reports. BK6 works with Windows 95, 98, ME, NT, 2000, XP. There is no charge to try it, and no time limit.
Name: BugToaster v2.0; Keyword: computer crash report; Trialware	Install our free software, send crash reports to our database automatically, and check to see if a fix is known. Join computer users, software developers, and IT professionals from around the world; working together to eliminate computer crashes. Software license does not allow inclusion of the file on this disk.
Name: CatWalkingAround; Keyword: fun	A cat walks around your monitor doing amusing things.
Name: Clipomatic v2.01; Keyword: clipboard cache; Freeware: donation accepted	Clipomatic is a clipboard cache program - it remembers what was copied to the clipboard even after new data is copied, and allows you to retrieve the old data.
Name: CloneSpy v2.0; Keyword: file management	CloneSpy is a free Duplicate File CleanUp Tool
Name: CodeStuff Starter; Keyword: startup manager	Starter is yet another startup manager. ; As a primary purpose, Starter allows one to view and manage all the programs that are starting automatically whenever operating system is loading. It enumerates all the hidden registry entries, startup folders' items and some of the initialization files, so that the user could choose to temporarily disable selected entries, edit them, create new, or delete them permanently. ; Secondary purpose is to list all the running processes with possibility to view extended process' information (such as used DLLs, memory usage, thread count, priorities etc.), and to terminate selected process (even a Windows NT service, having enough access rights). t
Name: dBpowerAMP Music Converter Release 10; Keyword: music converter	dBpowerAMP Music Converter (dMC), is one of those must have utilities, indispensable for converting audio files from one format to another:
Name: DBXtract; Keyword: Email helper	DBXtract extracts all mail and news messages from individual dbx files. After extracting the messages one can drag them from a Windows Explorer folder into an Outlook Express mail folder. It requires the presence of the VB6 runtime dll, msvbvm60.dll.
Name: Directory Lister v0.6; Keyword: file management	Directory Lister lets you list files in selected directories on hard disks, cd-roms, floppys etc. into a HTML or TXT file (listing). It's like the DIR command but MUCH more convenient. See the Readme file for instructions.
Name: DirectX v9.0b; Keyword: multimedia	The power of multimedia in Windows, DirectX gives you the best possible experience with graphics, sound, music, and 3-D animation. If you have a fast connection, use dxwebsetup.exe; if you do not have Internet connection, or use a modem, use dx90b_redist.exe. Microsoft recommends making a disk backup before installation.
Name: Dogwaffle Paint Program ; Keyword: paint program	Project dogwaffle is a paint program, not an image editor. If you like to create pretty pictures then dogwaffle should do well. Dogwaffle doesn't try to be too much like the other programs - that would be a waste of time. Dogwaffle is also meant to be fun. Several pay versions are also available.
Name: Dup Detector v3.101; Keyword: graphics management	Dup Detector finds duplicate and near duplicate images by opening and reading image pixel data, aids removal of duplicates.
Name: E-mail cleaner v2.02; Keyword: text editor	Remove ">" from forwarded emails. "Note: Although this program works, it is no longer supported by the vendor." -- PCWorld.com
Name: Easy Thumbnails v2.6; Keyword: graphics management	Create accurate thumbnails from popular picture formats with this handy freeware utility.
Name: Eudora v 6.0.3; Keyword: email handler; Freeware: Adware	Eudora is a powerful email management tool In Light mode, Eudora has many fewer features, but is free of charge and without ads. Light mode users are not entitled to technical support. If you like Eudora as a replacement to MS Outlook or Outlook Express, the paid versions are much more capable, and are available from the executable.
Name: ExamDiff v1.6i; Keyword: file management	ExamDiff is a freeware tool for visual file comparison of html and text files.

# SPAUG CDOM Mid 2004 (Page 3 of 5)

<p>Name: Excel Viewer v8.0; Keyword: Excel file viewer</p>	<p>The Microsoft Excel 97 Viewer allows users to view and print Excel 97 and Excel 2000 spreadsheet files, in addition to other Excel for Windows® (versions 2.0 and greater) and Excel for the Macintosh® (versions 2.2a and greater) spreadsheet files. This small, freely distributable viewer gives users the flexibility to view page layout, copy and control cell sizes, and access the zoom and AutoFilter features. This viewer also supports OLE DocObject as well as the ability to view any Excel file.</p>
<p>Name: FontList v1.3; Keyword: view installed fonts</p>	<p>Use FontList to view all installed fonts in your web browser. With FontList, you can create an HTML file that will show all the fonts installed on your computer.</p>
<p>Name: IE v6.0.2800; Keyword: browser</p>	<p>Internet Explorer 6 including Service Pack 1 updates the Internet Explorer 6 core technologies in Windows® XP Home Edition and Windows XP Professional. Internet Explorer 6 SP1 provides a private, reliable, and flexible browsing experience and the freedom to experience the best of the Internet for users of Windows XP, Windows Millennium Edition (Windows® Me), Windows 2000, Windows 98, and Windows NT® 4.0 Service Pack 6a. Note you must update to the most recent security patches after installation.</p>
<p>Name: Intellitamper v2.07; Keyword: website probe</p>	<p>ntelliTamper is a small and easy-to-use program that will tell you what is really behind any Web site. Just type in the address, let the IntelliTamper spider read the pages for you, and you will be able to access the files and browse the folders as if they were on your own hard-disk.</p>
<p>Name: IrfanView v3.85; Keyword: manage graphics files</p>	<p>IrfanView is a very fast, small, compact and innovative FREEWARE (for non-commercial use) graphic viewer for Windows 9x/ME/NT/2000/XP.</p>
<p>Name: Jarte v2.0; Keyword: word processor</p>	<p>Jarte is a great replacement for both the WordPad word processor and the NotePad text editor programs. Jarte is also a great alternative to the huge, complex, and cumbersome commercial word processors that are designed mainly for big corporations.</p>
<p>Name: KarenWare Replicator v2.2.3; Keyword: backup</p>	<p>Automatically backup files, directories, even entire drives! Karen's Replicator copies selected files from one drive/folder to another. Source and Destination folders can reside anywhere on your network. Files larger than 2 GB are supported. Visual Basic 6.0 is required to install and run Replicator.</p>
<p>Name: LeakTest v1.2; Keyword: firewall checker</p>	<p>LeakTest is a safe and small (27k bytes), completely benign "chameleon utility" which can be used to simulate the presence and effect of Trojan horses, viruses, and adware/spyware running in your computer. It simply and quickly tells you whether it has been able to slip out past your firewall's outbound Trojan/Virus/Spyware protections and establish a standard TCP connection with our NanoProbe server.</p>
<p>Name: LookDisk; Keyword: file search and find</p>	<p>Search for files using various parameters (also within Zip-Files). Search for a text in any file (also within Zip-Files). Search for duplicate files by name or content (also within Zip-Files). Show disk overview</p>
<p>Name: MailWasher v2.0.40; Keyword: spam control</p>	<p>Bounce back unwanted e-mails so it looks as if your email address is not valid. Delete unwanted e-mails before you download them. Analyse. MailWasher analyses each email as it arrives and warns you if it is suspected junk mail or a virus by heuristic checking and filtering. Blacklist. Any e-mails you bounce back get their senders details put on the blacklist for easy removal if they come back. Turn on the filter that uses SpamCop list for greatest effect. Note a pay version is available.</p>
<p>Name: Mars Exploration Rover Mission; Keyword: Mars Rover animations</p>	<p>NASA Mars Exploration Rover videos from JPL.</p>
<p>Name: MemTest v2.1; Keyword: RAM checker</p>	<p>MemTest is a RAM reliability tester; it tests the ability of your computer's memory to store and retrieve data. A correctly functioning computer should be able to do both these tasks with 100% accuracy - a computer that cannot, perhaps because of old hardware, damaged hardware, or poorly configured hardware, will be less stable and crash more often, and will become even less stable over time as corrupted data is written to your hard disk.</p>

# SPAUG CDOM Mid 2004 (Page 4 of 5)
